19th June 2020

Dear Parents/Carers.

I hope this letter finds you and your families safe and well.

This week we began our new curriculum, increasing the number of live lessons being delivered to all our pupils. We have updated the curriculum on the website to make it clear when the English, Maths and Science live lessons are taking place and where the second lesson will be an independent learning task on google classroom. For all other subject areas there will be a mixture of live lessons, and streamed lessons that students can access at the time indicated on the timetable. If you have any concerns over the live lessons, please email your child's teacher who can deal with any queries.

We thank you for your support in ensuring that your child is able to access the online learning. We have seen increased engagement from all pupils since the introduction of our new curriculum.

We are very conscious that we want to ensure that all our students return in September prepared for their next year of study, working towards achieving their full potential. As we receive more information from the government, we will communicate with you our plans to support all students that may have been disadvantaged due to the closure of schools, and how we plan to address this through 'catch up' sessions.

Yours faithfully,

Miss Claire James

Assistant Headteacher
