September 2023

Dear Parent/Carer,

Please find attached to this letter the homework timetable for your child. Home learning forms an important part of our school curriculum and supports our students to become more independent learners while deepening their knowledge and understanding of each curriculum area.

In KS3 homework should take students around 20 minutes to complete and they should have 1 week to complete the homework.

Homework will be set via google classroom and in some cases can be completed on google classroom. Homework for maths will be completed on Sparks, all students should have a log in for Sparks. If students miss a homework deadline they may receive a detention.

I have also attached our Extra-Curricular provision timetable, we run a number of weekly and fortnightly clubs and we encourage all our students to actively participate in the school community through joining these clubs. We also run a homework club to ensure all students have a place where they can complete their homework on site with support and guidance if needed.

We hope every student will take advantage of the opportunities provided for them and thrive in the school environment.

Kind regards

Claire
